

# STEALTH ADJUSTABLE

## INSTRUCTION MANUAL

Thank you for your purchase! You have successfully created your own modded Xbox 360 controller! Be sure to check the Controller Creator often as new options are added regularly.

The controller you have just received includes our most valuable mod. Our Adjustable Rapid Fire. This controller comes with 10 slots pre-loaded with our rapid fire already fine tuned for the most popular titles, but includes one additional slot with our Adjustable Rapid Fire slot.

Learn to use our Adjustable Setting to maximize rapid fire's potential for your favorite weapons. For the smoothest operation, learn the commands listed throughout.

# PRESET SLOTS

The controller features 10 Rapid Fire Slots and 1 Adjustable Rapid Fire Slot. Follow the command prompts below to activate rapid fire.

SLOT 12	<i>Ghost Recon: Future Soldier</i> Rapid Fire	 +  x 12

(Also ideal for *Halo 3*, *Rainbow Six Vegas 2*, *Left 4 Dead 1 & 2*, *GTA IV*)

# ADJUSTABLE RAPID FIRE

## ADJUSTABLE RAPID FIRE

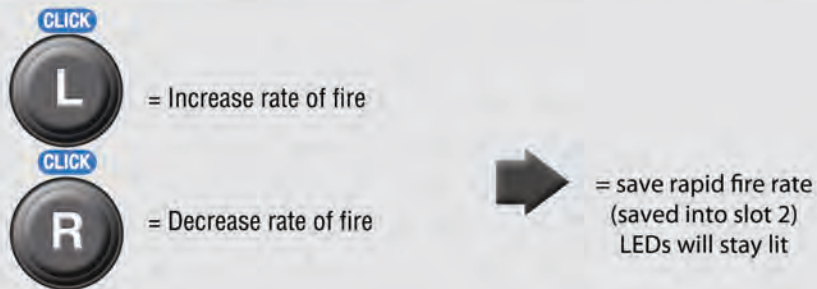

This mod can only be used once you have entered Slot 2

To enter Adjustable Rapid Fire

Adjustable Rapid Fire allows you to create your own rate of fire on any weapon with incredible precision. Features 15,000 increments of speed in total.

- It's possible for the rapid fire to be so fast that it doesn't register in the game. Try slowing it down at times.
- Try slowing automatic weapons down to reduce recoil and increase accuracy.
- Test at any time in-game by pressing  while in adjustable mode.

## QUICK TOGGLE

Easily toggle on or off Adjustable Rapid Fire to switch back to normal or modded gameplay.

# FREQUENTLY ASKED QUESTIONS

**Q: My controller isn't working as well as it was on the first day, what's going on?**

A: Modded Controllers require brand new AA batteries because power can be an issue. Avoid using rechargeable battery packs as the battery strength depletes faster than Alkaline AA batteries.

**Q: My Rapid Fire isn't working like normal and sometimes I can't just adjust it's rate very easily.**

A: Depending on the game and the battery brand, you may need to turn off the 'rumble' setting within the game settings. Voltage spikes can influence your rapid fire's rate.

**Q: Does Rapid Fire work in any other game?**

A: You betcha! With our adjustable Rapid Fire Setting, this controller is the last controller you will ever need to destroy your competition. Use Adjustable rapid fire to fine tune the fastest rate on your favorite weapons.

**Q: Can I use my rechargeable battery pack on my modded controller?**

A: Yes, BUT it is not recommended. These batteries hold very little power and over time their capacity is reduced, making it more susceptible to malfunctioning.

**Q: Does my controller have an included warranty?**

A: Yes, your controller has an included 30 day parts and labor. If any issues arise with the functionality of your mod, we will fix it at no extra cost.

**Q: Is my controller undetectable?**

A: Yes, your controller is 100% undetectable and legal to use.

**Q: How can I contact you?**

A: You may contact us at 877.385.6608 or via e-mail at [info@controllercreator.com](mailto:info@controllercreator.com)
